1.0 EXECUTIVE SUMMARY

This report represents results of an Environmental Site Assessment of a vacant property located on 7026 ½ Hidden Arbor Ln., Houston, Texas 77040. The subject site was inspected on December 21, 2005 by Mr. Zahir Jamal of RAO ENVIRONMENTAL. The subject property is a vacant land and has 25, 687 square feet in area. The site has vacant, grassy areas with few trees. Hazardous materials were not found at the site. Review of the title search does not indicate property owners, whose names might indicate possible environmental concerns about the site.

Review of the regulatory lists indicates that the subject property is not listed as a NPL (National Priority List), ERNS (Emergency Response Notification System), CERCLIS (Comprehensive Environmental Response, Compensation and Liability Information System), RCRIS (Resource Conservation Recovery Information System), LPST (Leaking Petroleum Storage Tank), UST (Underground Storage Tank), TSD (Treatment, Storage and Disposal) or a LANDFILL facility. Adjacent sites and sites within the half-mile radius are not listed as NPL (National Priority List), CERCLIS (Comprehensive Environmental Response, Compensation and Liability Information System), RCRIS (Resource Conservation Recovery Information System), ERNS (Emergency Response Notification System), TSD (Treatment, Storage and Disposal) and LANDFILL facilities. One facility within the half-mile radius appears on the LPST (Leaking Petroleum Storage Tank) facilities list. Final concurrence was issued and the case was closed for the facility on 9435 Houston Rosslyn Rd. This facility is not adjacent to the property and, therefore, is not of environmental concern to the subject site. One facility within the half-mile radius appears on the UST (Underground Storage Tank) facilities list.

The Phase 1 ESA based on the on-site inspection, review of the regulatory lists, inquiries with the local governmental agencies, review of the title search, and review of the aerial photos reveals that the site has a low risk with respect to the environmental concerns.

2.0 OBJECTIVE

2.1 Scope of work

The scope of the study included a site visit, a review of the site history, regulatory agency documentation and an environmental assessment of the property.

2.2 Client authorization

The study was authorized by Mr. Gabriel Mussio, Building Services Department, City of Houston, Texas and was performed for the client in evaluating potential environmental problems associated with the site. If any additional information is known or encountered regarding the site, it should be forwarded to this office for a possible reevaluation of conclusions.

2.3 Limitations and assessment

The Phase I Environmental Site Assessment consists of various studies including a review of the chain of title of the property, an on-site inspection of the site and its facilities, a review of the files at Government and Environmental Regulatory Agencies. All investigations in this study have been conducted in accordance with American Society for Testing and Materials and Standard Practice for Phase I Environmental Site Assessments.

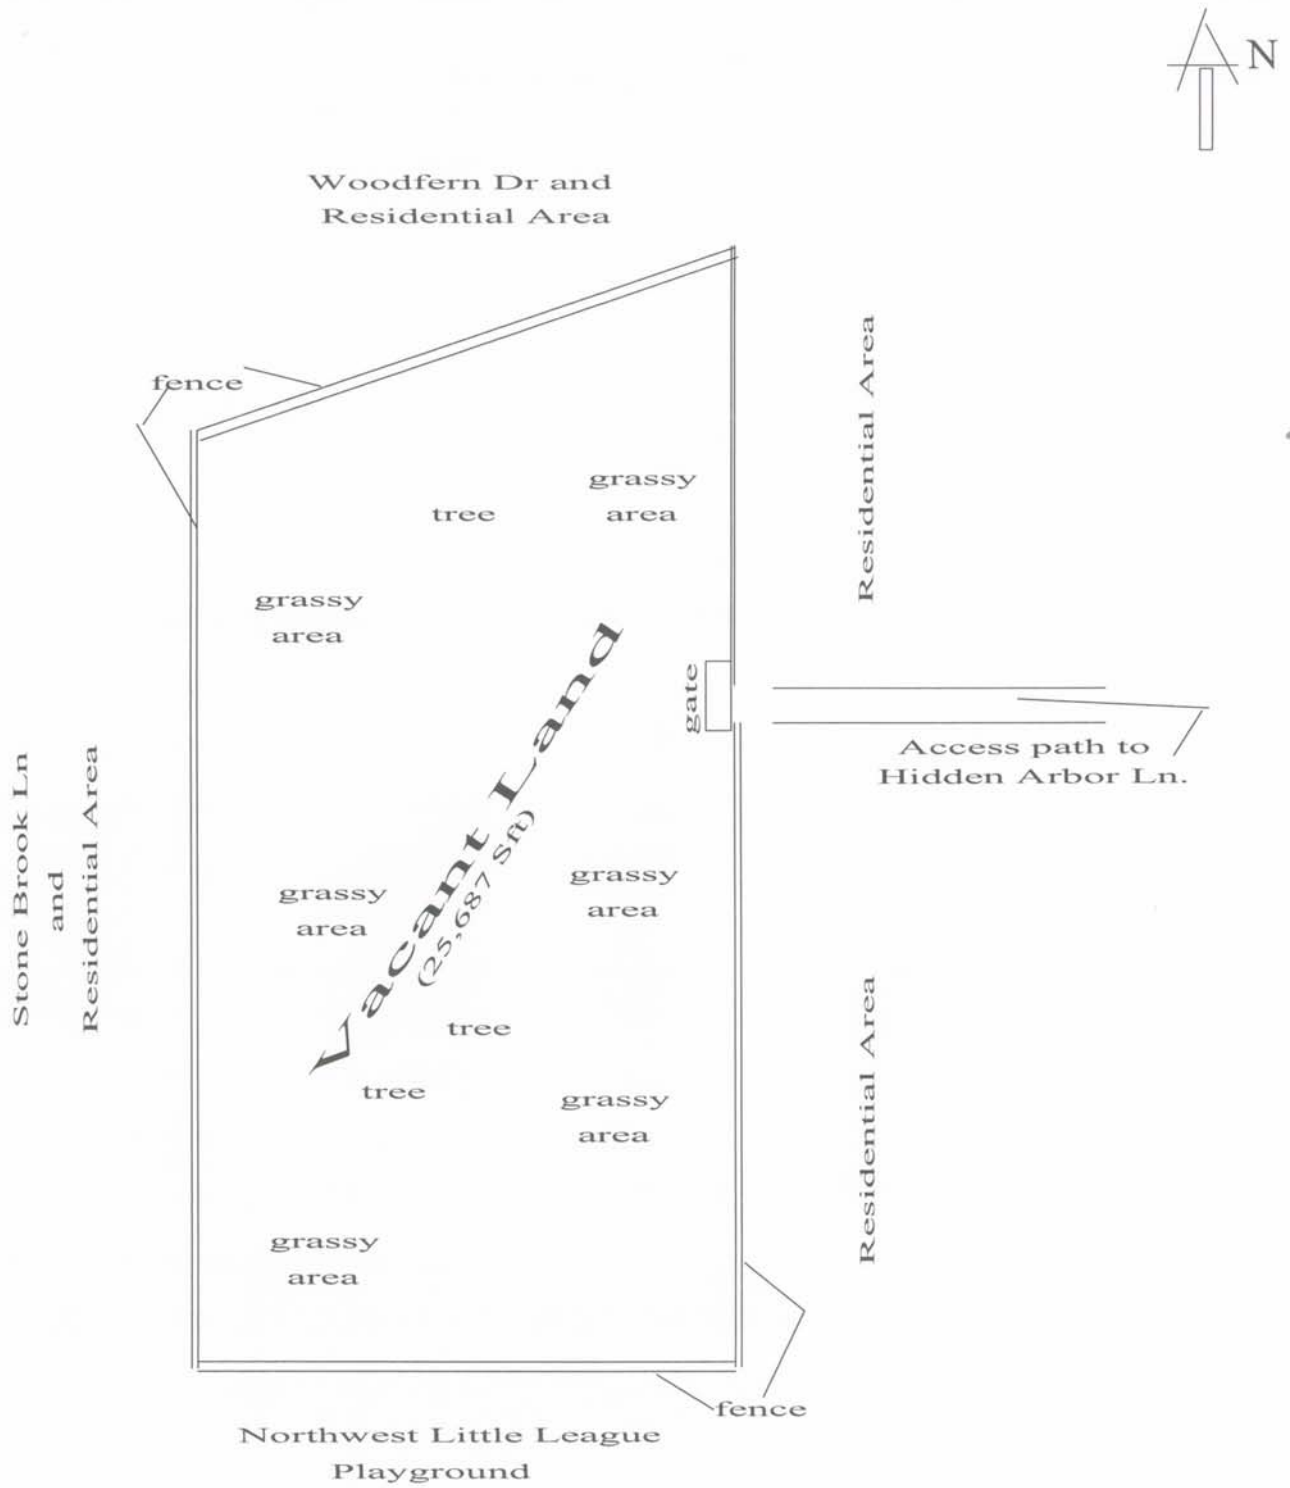

Figure is an approximation

Figure1: Site map- 7026 1/2 Hidden Arbor Ln., Houston, Texas 77040

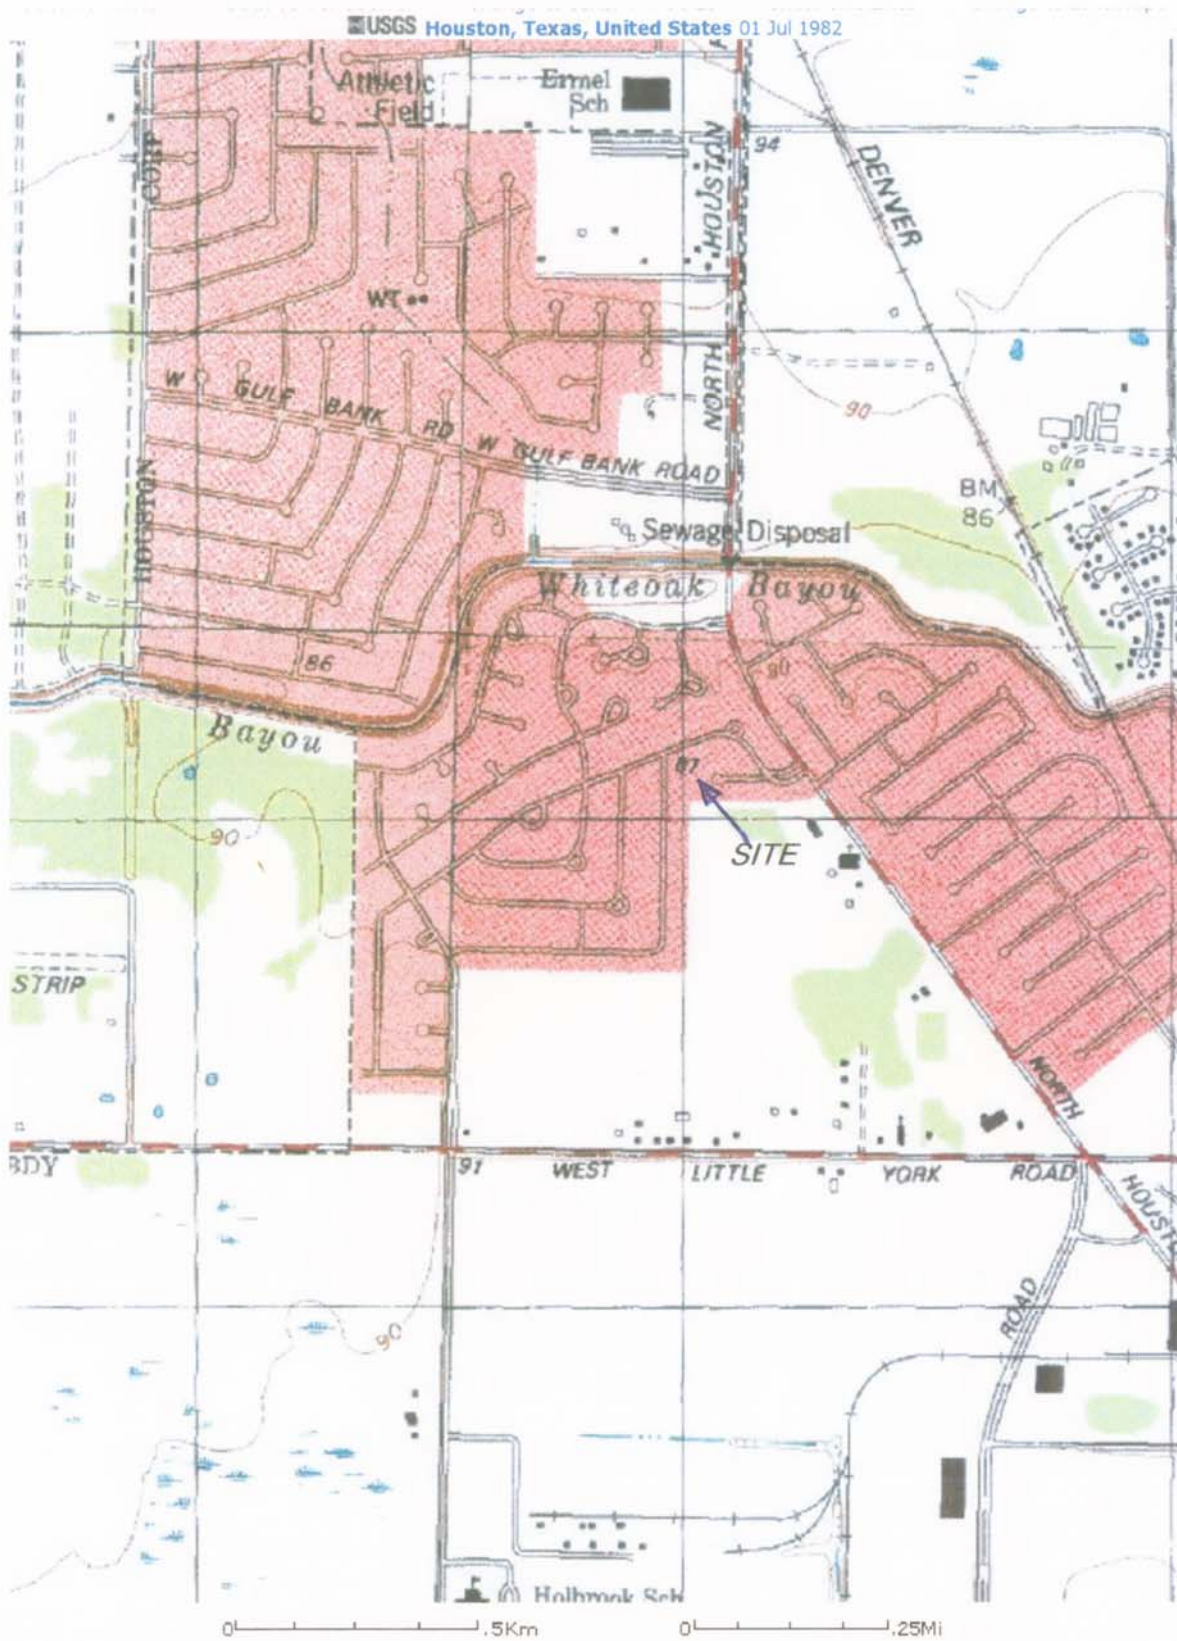

Scale: 1" = 40 ft (approx.)

3.0 SITE LOCATION AND DESCRIPTION

The subject property is a vacant land of 25,687 square feet. The site has vacant, grassy areas with few trees. The site is legally described as follows:

“All of Reserve “F”, out of the Woodland Trails Subdivision, Section 2, a subdivision located in the Samuel Lewis Survey, Abstract No. 510, Harris County, Texas, according to the map recorded in Volume 152, Page 68, Harris County Map Records”.

The site is geographically located at Latitude 29° 52' 20" and Longitude 95° 29' 42". A site map is presented as Figure-1.

Topo Map

4.0 ENVIRONMENTAL SETTING

USGS Quadrangle Maps, Texas Water Development Board hydrogeological literature, conversations with the local officials and the Geologic Atlas of Texas were used to determine the environmental setting of the site and the general area.

4.1 Surface water characteristics

The elevation of the site is approximately 87 feet Above Mean Sea Level (AMSL) and can be seen on the Hedwig Village Quadrangle Map. Nearest surface water feature is Whiteoak Bayou. Surface water drainage is to the south.

4.2 Groundwater characteristics

Groundwater in the area is obtained from the Chicot and Evangeline aquifers. These units are composed of clay, sand and gravel which were deposited in the fluvial, deltaic, and shallow marine environments and are hydrologically connected. The Chicot aquifer consists of the Willis Sand, Bentley Formation and the Montgomery Formation, Beaumont Formation and overlies the Evangeline aquifer. The Evangeline aquifer consists of the upper most part of the Fleming Formation and the Goliad Sand.

Recharge to the aquifers is from precipitation that falls on the outcrop areas. These formations outcrop in belts that are nearly parallel to the Gulf of Mexico. The Goliad Sand is overlapped by younger formations east of the Brazos river and is not exposed at the surface in the coastal area.

The site is located on the Beaumont Formation which is of quaternary age and consists of mostly stream channel, point bar, natural levee, backswamp and to a lesser extent coastal marsh and mud flat deposits.

5.0 ENVIRONMENTAL REGULATORY REVIEW

Established lists were checked to evaluate if the site or adjacent properties are reported as having possible environmental concerns. The following paragraphs discuss the agencies and lists conducted.

5.1 Federal and State Regulatory Agency Inquiries

NPL list

This is a list of sites established by Federal Government as having a priority for clean up. Many are superfund sites. The site does not appear on the NPL list. Adjacent sites and sites within the half-mile radius do not appear on the list.

CERCLIS list

The CERCLIS list is compiled by the Federal Government and includes sites which could possibly be contaminated and may require clean up. Many of the sites which appear on the CERCLIS list have been thoroughly investigated. The site, adjacent sites and sites within the half-mile radius do not appear on the list.

RCRIS FACILITIES list

The Resource Conservation and Recovery Information System (RCRIS) is a nationwide data base created to maintain and regulate facilities that handle hazardous waste. The RCRIS data base replaced the HWDMS (Hazardous Waste Data Management System) in September 1992 as a major system supporting the implementation of RCRA (Resource Conservation and Recovery Act). The site does not appear on the list. Adjacent sites and sites within the half-mile radius do not appear on the RCRIS facilities list.

Identified Site, Multiple Sites, Receptor

NPL, Brownfield, Solid Waste Landfill (SWL) or Hazardous Waste

Railroads

Black Rings Represent 1/4 Mile Radius; Red Ring Represents 500 ft. Radius

TSD list

The TSD list consists of facilities that have been registered to treat, store or dispose of hazardous wastes. These facilities are assigned a corresponding TSD number. The site, adjacent properties and properties within the half-mile radius do not appear on the list.

UST list

Owners of Underground Storage Tanks (USTs) are required to register their USTs along with the construction information regarding the UST system with the Texas Commission on Environmental Quality (TCEQ). The property and adjacent properties do not appear on the list. One facility within the half-mile radius appears on the UST facilities list.

LPST list

The LPST list consists of Petroleum Storage Tank Systems which have reported releases of greater than 25 gallons. The list is maintained by the Texas Commission on Environmental Quality under delegation from the EPA. The property and adjacent properties do not appear on the list. One facility within the half-mile radius appears on the LPST facilities list. Final concurrence was issued and the case was closed for the facility on 9435 Houston Rosslyn Rd. This facility is not adjacent to the property and, therefore, is not of environmental concern to the subject site.

LANDFILL list

The landfill list is compiled and maintained by the Texas Department of Health and consists of sites identified as landfill, waste processing facility or sludge disposal facility. The site, adjacent properties and properties within the half-mile radius do not appear on the list.

ERNS list

EPA's emergency response notification system consists of a list of reported CERCLA hazardous substance releases or spills in quantities greater than the reportable quantity as maintained at the National Response Center. The site does not appear on the list. Adjacent sites and sites within the half-mile radius do not appear on the list.

5.2 Other Local and State Government inquiries:

Harris County Pollution Control Department:

Ms. Fleda Key of the Harris County Pollution Control Department investigated the subject site for records of hazardous chemical spills. She indicated (ROC-1) that there were no chemical spills or accidental fires on record at the subject site during the last five (5) years.

6.0 HISTORICAL USAGE INFORMATION

Site history was investigated by reviewing the property information and aerial photos.

6.1 Current ownership

Review of the title search indicates that the property is currently owned by Harris County Water Control and Improvement District No. 93.

6.2 Prior ownership

A copy of the title search is presented in Appendix-B. Review of the title search indicates that the property was never owned by the owners, whose names would indicate possible environmental concerns about the site, such as Landfill companies and Hazardous Waste Storage and Treatment and Disposal facilities. The property was owned by L.H Caesar in 1928. Since then, several companies and individuals owned the site. Harris County Water Control and Improvement District No. 93. acquired the site in the year 1969.

6.3 Historical City Directories/ Fire Insurance Maps

Historical City Directories and Fire Insurance Maps were not available for this area.

6.4 Review of the aerial photographs

1944 aerial photo (1"= 700 ') shows the site as a vacant land. Vacant and wooded sites are present to the north, south, east and the west.

1953 aerial photo (1"= 700 ') shows the site as a vacant land. Vacant, residential and wooded sites are present to the north, south, east and the west.

1969 aerial photo (1"= 700 ') shows the site as a vacant land. Vacant, residential and wooded sites are present to the north, south, east and the west.

1979 aerial photo (1"= 700 ') shows the site as a vacant land. Vacant, residential and commercial sites are present to the north, south, east and the west.

1986 aerial photo (1"= 700 ') shows the site as a vacant land. Vacant, residential and commercial sites are present to the north, south, east and the west.

1996 aerial photo (1"= 700 ') shows the site as a vacant land. Vacant, residential and commercial sites are present to the north, south, east and the west.

2004 aerial photo (1"= 700 ') shows the site as a vacant land. Vacant, residential and commercial sites are present to the north, south, east and the west.

7.0 RESULTS OF THE ON-SITE INSPECTION

The site was inspected on December 21, 2005 by Mr. Zahir Jamal of RAO ENVIRONMENTAL.

7.1 Observations

The subject property is a vacant land and has 25,687 square feet in area. The site has vacant, grassy areas with few trees. Entrance to the site is from Hidden Arbor Ln. Few trees are present at the site. Rest of the area consists of grass. An entrance gate is present to the east of the site. The property is enclosed by a fence. The property does not have pipeline easements. No other developments or improvements were found at the site.

Vent lines, tankhold areas and steel caps indicative of the buried USTs were not found at the site.

Following is the list of property's usage at the adjacent properties.

Property usage-north: Adjacent properties to the north are Residential area and Woodfern Dr.

Property usage-south: Adjacent property to the south is Northwest League playground.

Property usage-east: Adjacent properties to the east are Residential area and Hidden Arbor Ln.

Property usage-west: Adjacent properties to the west are Residential area and Stone Brook Ln.

7.2 Hazardous substance identification/ inventory

Pesticides, solvents and other hazardous materials were not found at the site.

7.3 PCBs and Radon

PCB containing materials such as capacitors, transformers and light ballasts were not found at the sites. The sites are not in a EPA designated radon gas containing area. The soil at the subject sites, therefore, does not emit radon gas.

7.4 Lead Paint containing materials

Site is a vacant land.

7.5 Sampling results

Site is a vacant land.

8.0 FINDINGS AND CONCLUSIONS

The Phase I ESA based on the on-site inspection, review of the regulatory lists, inquiries with the local governmental agencies, review of the title search, and review of the aerial photos reveals that the site has a low risk with respect to the environmental concerns.

Notice of Disclaimer

Due to the limitations, constraints, inaccuracies and incompleteness of government information and computer mapping data currently available to Banks Information Solutions, Inc., certain conventions have been utilized in preparing the locations of all federal, state and local agency sites residing in Banks Information Solutions, Inc.'s databases. All EPA NPL and state landfill sites are depicted by a rectangle approximating their location and size. The boundaries of the rectangles represent the eastern and western most longitudes; the northern and southern most latitudes. As such, the mapped areas may exceed the actual areas and do not represent the actual boundaries of these properties. All other sites are depicted by a point representing their approximate address location and make no attempt to represent the actual areas of the associated property. Actual boundaries and locations of individual properties can be found in the files residing at the agency responsible for such information.

Waiver of Liability

Although Banks Information Solutions, Inc. uses its best efforts to research the actual location of each site, Banks Information Solutions, Inc. does not and can not warrant the accuracy of these sites with regard to exact location and size. All authorized users of Banks Information Solutions, Inc.'s services proceeding are signifying an understanding of Banks Information Solutions, Inc.'s searching and mapping conventions, and agree to waive any and all liability claims associated with search and map results showing incomplete and or inaccurate site locations.

AST INFORMATION

Environmental FirstSearch Database Descriptions

NPL: *EPA* NATIONAL PRIORITY LIST - Database of confirmed, proposed or deleted Superfund sites.

CERCLIS: *EPA* COMPREHENSIVE ENVIRONMENTAL RESPONSE COMPENSATION AND LIABILITY INFORMATION SYSTEM - Database of current and potential Superfund sites currently or previously under investigation.

NFRAP: *EPA* COMPREHENSIVE ENVIRONMENTAL RESPONSE COMPENSATION AND LIABILITY INFORMATION SYSTEM ARCHIVED SITES - database of Archive designated CERCLA sites that, to the best of EPA's knowledge, assessment has been completed and has determined no further steps will be taken to list this site on the National Priorities List (NPL). This decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be a potential NPL site.

RCRA TSD: *EPA* RESOURCE CONSERVATION AND RECOVERY INFORMATION SYSTEM TREATMENT, STORAGE, and DISPOSAL FACILITIES. - Database of facilities licensed to store, treat and dispose of hazardous waste materials.

RCRA COR: *EPA* RESOURCE CONSERVATION AND RECOVERY INFORMATION SYSTEM SITES - Database of RCRA facilities with reported violations and subject to corrective actions.

RCRA GEN: *EPA* RESOURCE CONSERVATION AND RECOVERY INFORMATION SYSTEM SITES - Database of facilities that generate or transport hazardous waste or meet other RCRA requirements. LGN - Large Quantity Generators SGN - Small Quantity Generators VGN - Conditionally Exempt Generator. Included are RAATS (RCRA Administrative Action Tracking System) and CMEL (Compliance Monitoring & Enforcement List) facilities.

ERNS: *EPA/NRC* EMERGENCY RESPONSE NOTIFICATION SYSTEM - Database of emergency response actions. Data since January 2001 has been received from the National Response System database as the EPA no longer maintains this data.

STATE SITES: *TCEQ* Listing of sites contained in the State Superfund Registry, listing of all sites in the Voluntary Cleanup Program (VCP) and the Innocent Owner/Operator Program (IOP). Some VCP and IOP sites are noted as having institutional controls placed on them.

SWL: *TCEQ* Listing of all permitted solid waste landfills, transfer stations, and incinerators

OTHER: TCEQ Texas Industrial Hazardous Waste Notice of Registration (IHW NOR) data. The TCEQ enters all information submitted by industrial and hazardous waste transporters, receivers (including recyclers), generators and one time shipments into a database that tracks industrial and hazardous waste generation and management activities in the state of Texas. All facilities of these types receive a solid waste registration number.

REG UST/AST: TCEQ Listing of all underground petroleum storage tanks

LEAKING UST: TCEQ Listing of all leaking underground petroleum storage tanks

OTHER: EPA SECTION SEVEN TRACKING SYSTEM (SSTS) – database of registration and production data for facilities which manufacture pesticides. AEROMETRIC INFORMATION RETRIEVAL SYSTEM (AIRS) – database of detailed information pertaining to sites which submit air emissions reports. Developed under the Clean Air Act, this database also maintains data on compliance status and enforcement actions.

RADON: NTIS NATIONAL RADON DATABASE - EPA radon data from 1990-1991 national radon project collected for a variety of zip codes across the United States.

APPENDIX-D

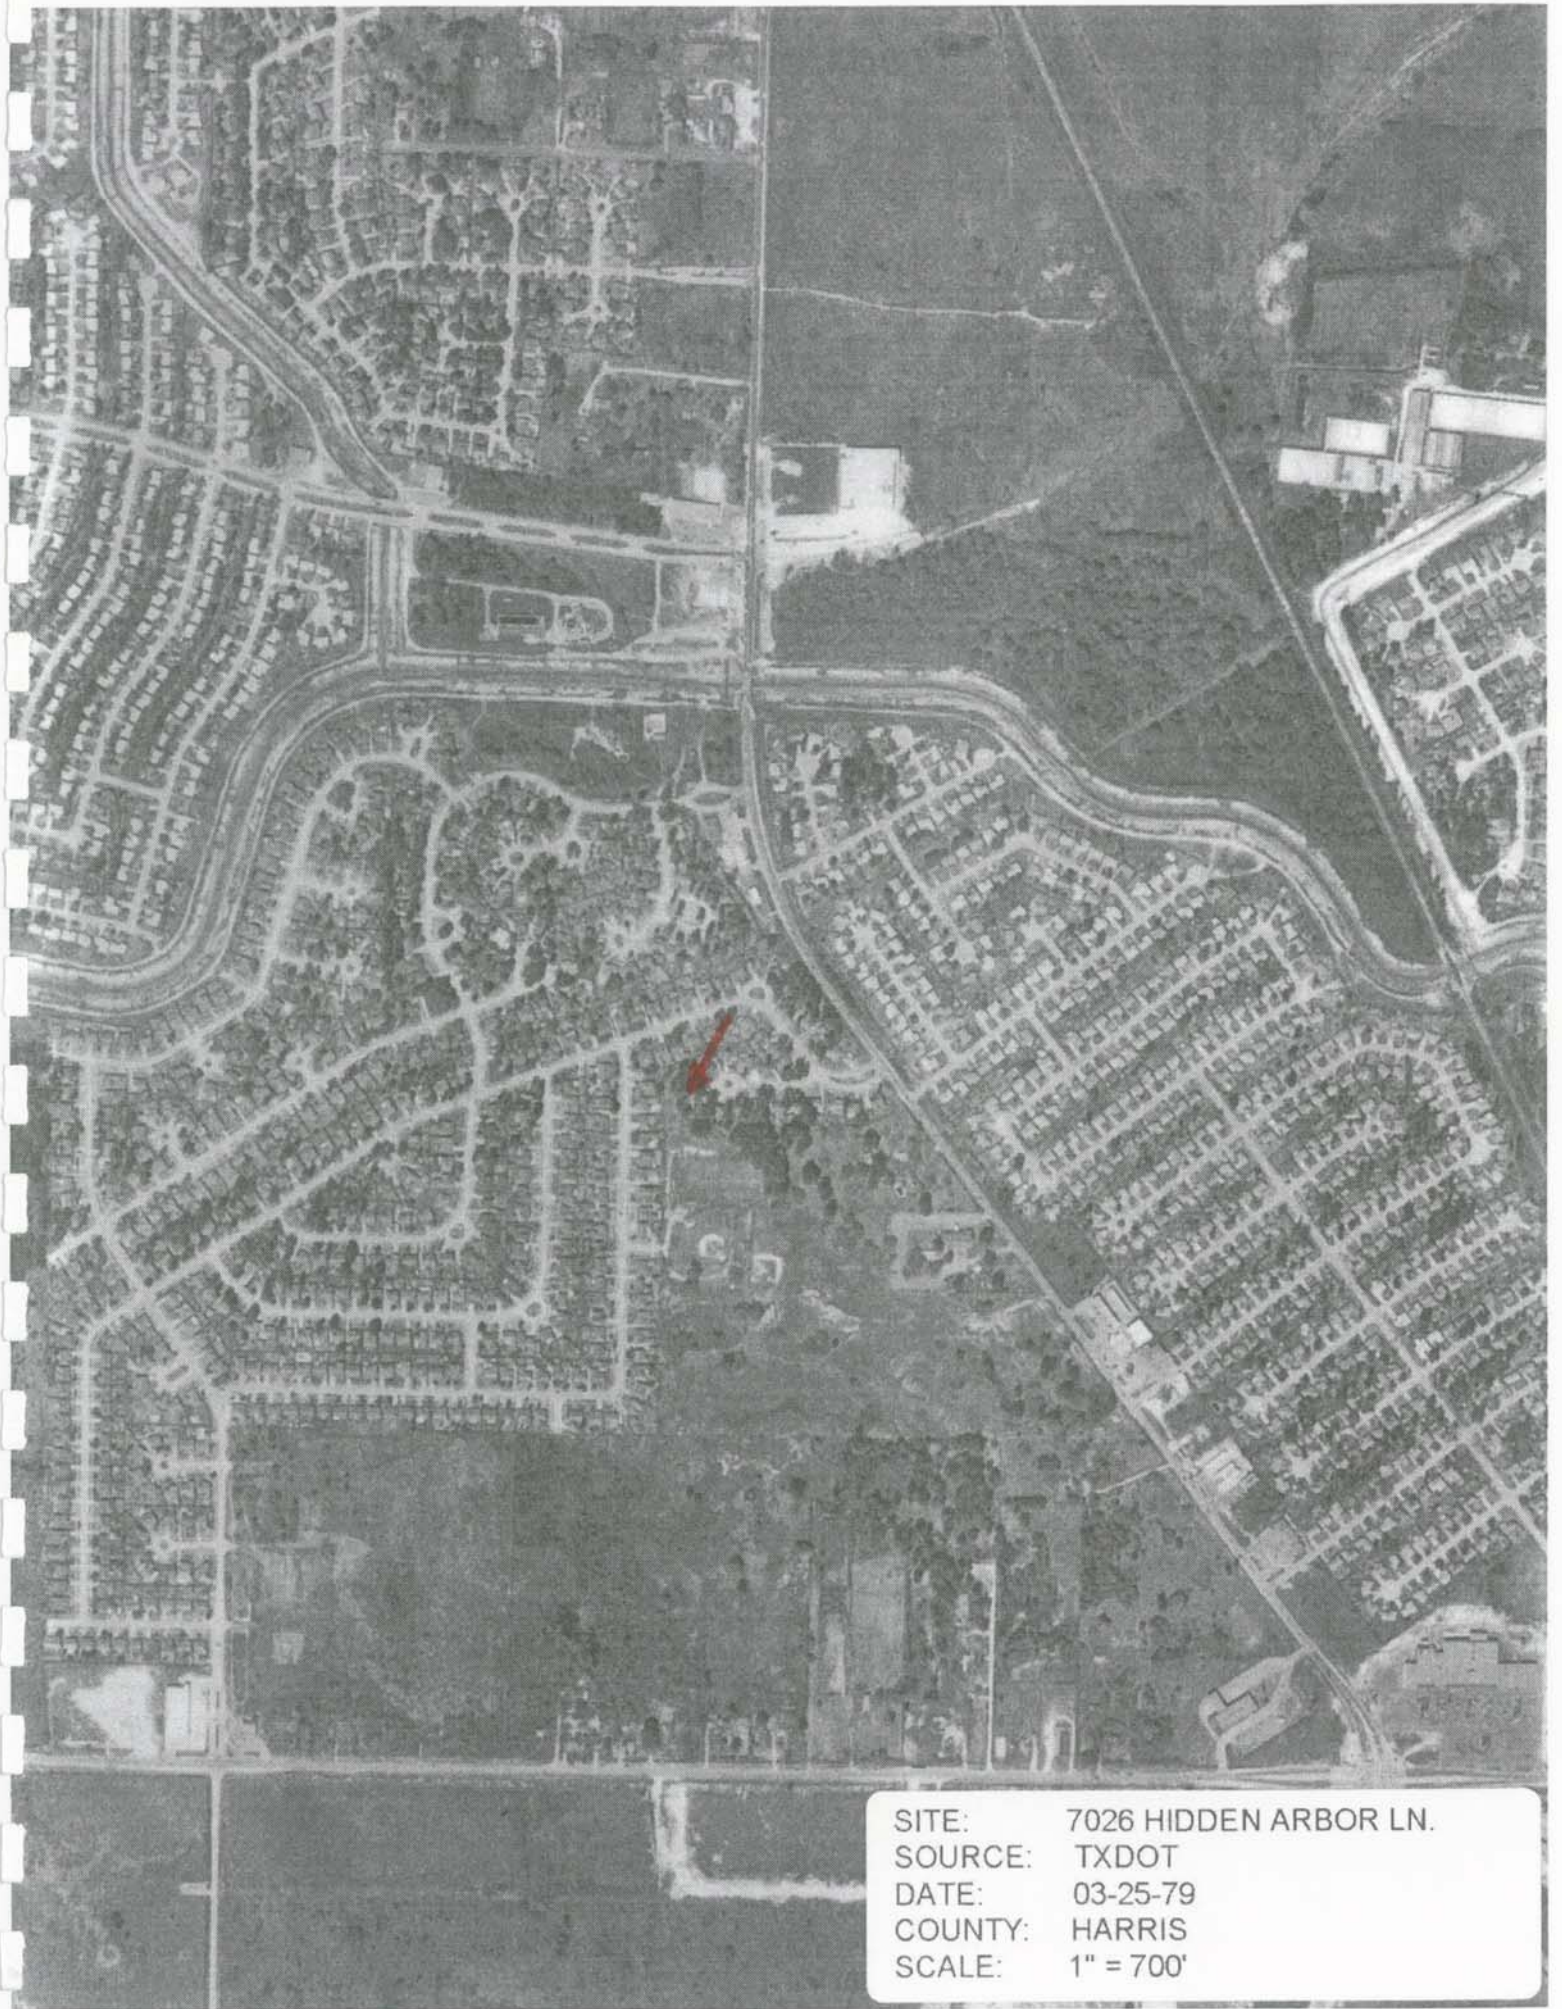

SITE: 7026 HIDDEN ARBOR LN.
SOURCE: ASCS
DATE: 04-03-44
COUNTY: HARRIS
SCALE: 1" = 700'

An aerial photograph of a rural landscape. The terrain is a mix of dark, wooded areas and lighter, open fields. A prominent road or path runs diagonally from the top right towards the bottom right. Another road or path runs horizontally across the bottom of the image. A red arrow is drawn on the image, pointing to a specific location in the wooded area, just above the horizontal road at the bottom. The left edge of the image shows a series of white rectangular marks, possibly from a binder or scanning process.
